

## PRE-DEPARTURE COVID-19 TESTING IN THE BRITISH VIRGIN ISLANDS

The British Virgin Islands Health Services Authority (BVIHSA) is the authority responsible for COVID-19 testing in the British Virgin Islands. They conduct RT-PCR and Rapid Antigen Tests.

If pre-departure testing is required by the country to which guests are travelling to from the BVI, the BVIHSA recommends contacting the preferred clinic for an appointment at least 3 days in advance of departure, indicating travel date and the testing requirement of that country. Guests should inform health service personnel of their departure date.

To make an appointment please call the numbers provided and if applicable please pre-register at the portal (see below [bvi.care](#)). To contact the BVI Health Services Authority directly, call the COVID Medical Hotline at 284-852-7650 or 284-441-2384. Guests on the sister islands of Virgin Gorda and Jost Van Dyke can call 284-852-7700 and 284-346-1709 or Anegada 284-852-7785 respectively.

Below is a table with the COVID-19 testing sites in the BVI:

The Welcome Centre at the Road Town ferry terminal does not provide pre-departure testing.

All PCR tests are tested at the Dr. D. Orlando Smith Hospital Laboratory and test results are normally available within 24-48 hours. However, additional time should be allowed for tests not done on Tortola.

Please note that the cost of pre-departure tests (varies depending on type of test) will be paid by the guest. BVIHSA Concierge service will incur extra costs including physician fee, transportation and service charge.
